

Full-Service Medical Billing

**You help patients. We help you.
Full-Service Medical Billing, customized for you and your practice.**

**Are you struggling
with complex
regulations?**

**Are you confused
by new payment
models?**

**Are you
overwhelmed
with denials?**

**Since 1982, CIPROMS has worked with practices
at every stage of the billing cycle.**

Our team supports and enhances your practice, whether hospital-based or office-based. We help with every step of the billing process; there's no billing staff to hire or software to purchase—though we also can use your software if you've already purchased it—and our HIPAA-compliant off-site backup system gives you the assurance you need. Other benefits of using CIPROMS Medical Billing:

- Provider enrollment with government and commercial plans of your choice.
- Efficient claims processing through demographic interfaces, certified coding, and trained data entry teams.
- Claims scrubbing technology resulting in a high percentage of clean claims on first submission.
- Electronic payment remission, posted by line item to patient accounts, and denials worked automatically.
- Follow-up of all unpaid, underpaid, and unacknowledged claims through automated work queues.
- Patient balances move through a statement cycle customized to client specifications.

trained workforce

Let us bring our designated account executives, certified coders and billing specialists, and years of industry experience to work on your behalf.

advanced technology

We use the latest technology at every stage of the billing process, from demographic interfaces to claims scrubbing to electronic payment remission and lockbox posting.

business analytics

From monthly report packages to online dashboards, let your data help you make strategic business decisions. Also, our business analytics supports CMS and commercial payer quality reporting.
